- ColorFast™ fade-resistance technology.
- Premium vinyl compounds and UV inhibitors promote long-term weatherability and color retention.
- To 216 mph.
- The TimberCrest siding's premium color is consistent all the way through, so painting is never needed.

Actual colors may vary from those displayed in brochure. Call Bruce Mound Builders for actual color swatch.

## CUSTOM BUILT CABINS

### Options:

- Electrical wiring
- Fully insulated floor, siding, ceiling
- Finished interior
- Finished exterior walls painted T1-11
- Porch built with treated deck boards
- Bunk beds
- Shelves
- Lofted

## SITE PREPARATION

- It is recommended that 3-4" of crushed stone or gravel be used as the base (with or without a wood perimeter)
- Base should be 12" larger than building on all four sides
- Please make sure that the base is perfectly level; Bruce Mound Builders is not responsible for structural problems if the base is not level
- Blocks can be used but is not recommended as a good option
- **Bruce Mound Builders and it's associates are not responsible for yard or driveway damage. It is the customer's responsibility to decide if conditions are suitable for delivery.**

## PERMITS

- Buyer is responsible for obtaining all permits
- It is recommended that you check your local ordinances before ordering a building to know what size you can have and where you can place your building (this can be done by checking with your city/village/town clerk)
- Permits for different buildings may fall under different codes (i.e. cabin permit may fall under "Uniform Dwelling Code")
